State and Defense Fight Hard
Over Latter's Plea for New
Trial—Trial Conduct and
Jurors Attacked

GRAY, Ga., Oct. 24.—The evidence for the state and defendant in the trial of Jack Wilburn, charged with the murder of James King, was completed at 1 o'clock this morning.

The general supposition had been that the defendant, Wilburn, would go on the stand and make a statement during the morning. Mrs. King, with whom he is said to have had a questionable relationship with having induced him to the commission of the crime, attorneys for the defendant, however, did not allow their client to make a statement in his own behalf.

Dan Newman, counsel for the defendant, began arguing to the jury that the case shows that the jury that King before said by Wilburn it is a case of suicide. Robert C. Newman, junior member of the firm, appearing today and will argue the case in conclusion.

The case of Mrs. Kate King indicates as an accessory after the fact with Wilburn as principal, will be called Monday morning at 10 o'clock. The case involves the tragedy of the murder of James King, a prominent citizen of this city, who was shot and killed on the morning of September 15.

The defense attorneys are expected to make a strong case for the defendant, and the trial is expected to be one of the most sensational of the season.

Three hours of the Friday morning session of Judge Roan's court, engaged since Wednesday in hearing the defense motion for a new trial of Leo M. Frank on the charge of murdering Mary Phagan, were devoted to further dispute among the lawyers for the state and defense. The dispute was over the reading of the depositions which were to be introduced by the defense.

At noon the motion, 115 counts long and very voluminous, was completed, and for the first time since it began its work the court found itself ready to proceed with other matters in the case. The reading of its depositions was begun immediately by the defense, Attorney Homer Robbins, who had been at the court since 12:30 o'clock, then remained several hours to read by the defense, and all of the state's arguments were yet to be introduced by Solicitor General.

It was expected that about an hour before the court would be occupied with the defense motion at 2 o'clock. Then the state would be called upon to make its case. It was said to be that each side would occupy three or four hours with argument. Then the motion will be read by Judge Roan for decision.

Two hours after court resumed its work on the Frank motion for a new trial at the capital Friday morning, it still was engaged with odds and ends. The state's arguments were read, and the defense attorneys were expected to make a strong case for the defendant, and the trial is expected to be one of the most sensational of the season.

THE RISING TIDE Rescuers Overcome By Gases in Mine of Death

COMMITTEE NAMED TO
CONSIDER PLAZA PLAN
Mayor Names Men Who Meet
Tuesday to Consider the
Plan

Major Woodward has appointed the committee which is to take up the question of erecting a plaza over the tracks in the center of the city, and the committee will meet next Tuesday afternoon at 2 o'clock.

Those appointed by the mayor are W. A. Wimbush, John W. Grant, R. M. Clayton, J. S. Canfield, C. H. Kelley and L. Ashby, with the president of the chamber of commerce and the mayor as ex-officio members.

Originally it was intended that the mayor should appoint three members of the committee and the chamber of commerce three, but Wilmer L. Moore, president of the chamber, wrote to tell the mayor that he would leave the appointments entirely in his hands.

The committee will organize at once and will begin active work to secure the plaza.

"Every possible effort will be made," said the mayor, "and if it is possible to get the plaza built."

Probably Now That but Twenty-
Three Men Out of Nearly
300 Survive Terrific Disaster

DAWSON, N. M., Oct. 24.—Crews from the first government rescue car to reach here were equipped with helmets today and sent into Stag Canon Mine No. 2 in search of James Lurdi and William Polka, helmet men believed to have been killed by poisonous gases after an accident that caused them to remove their headgear.

The government rescuers started for the eighteenth chamber east, two and a half miles from the portal. It was at this point that Lurdi and Polka, with two companions, were searching for the body of General Superintendent William McMorrett and perhaps at least two more miners who were believed to have been in that part of the mine when Wednesday's explosion occurred.

Because of the increasing presence of carbon dioxide gas in the mine which has penetrated chambers where the air was comparatively pure late last night, the government's rescuers, confident that no more men are alive, have changed their method of attack and devoted their entire energies to driving out the poisonous gases.

The probable death list, including the two helmet men, was increased to 282 today, and at noon the number of non-rescued alive remained at twenty-three.

BURGLARS TRY TO LOOT
PETERS STREET BANK

Two attempted burglaries that occurred during the early hours of Friday morning led the detectives to believe that the same gang that was flushed trying to break open the safe of Randall Bros. Co. company at 416 South Boulevard, also made an attempt to enter the Farmers and Traders' bank on Peters street.

Officers Powers and Chatham heard a noise in the office of the coal company and entered the open front door. As they did two men left by a window and were seen again. In their flight they left a lot of tools that indicated they were not novices at the business. The deal of the safe had been chiseled off.

Policemen King and Perry, who were walking the Peters street beat, arrived at the bank just in time to see a complete way from a window that had been pried open.

U. S. Ready to Use Warships
To Obtain Lurdi's Release

(By Associated Press.)
WASHINGTON, Oct. 24.—Development of a few hours today in the relations between the United States and Mexico emphasized a gravity of affairs more ominous than at any time since President Wilson's administration began. Absolute silence was the order in official quarters.

The release of the Ward Line's Morro Castle, after preliminary demands by the United States, terminated a delicate situation which the Haerta administration might have maintained.

The United States government's protection will be given to Lurdi or any other candidate on the theory that it is not the individual, but the principle of free speech and free elections which must be maintained.

Precedents as to the course the United States would pursue varied with the administration and the questions that the United States might pose to re-establish order and control in the situation which the Haerta administration would have to face.

It is understood also that the United States by the same statement will reiterate the American policy that only governments founded on constitutional law and order will be recognized on the western hemisphere.

MOYER'S CLEAN-UP AT FEDERAL PEN BEGINS

Understood That One of the
Guards Who Tried to Incite
Mutiny Will Resign

Following a conference with wardens Oliver Grimes, one of the guards on the federal prison will begin his investigation into the cause of the recent disturbances at the prison, and Grimes, it is understood, was charged with trying to incite the prisoners to mutiny. The warden held a conference with him in connection with the matter, but has not announced his decision in the matter.

The warden declines to make further statements as to what he intended to do. "I am acting as the agent," he said, "and until my report comes in, I am not to be held responsible for the results of my investigation."

The investigation will probably be very active, and those who were involved in the disturbances will be replaced.

"If a man is found to be disloyal," said the warden on his return from the investigation, "he will have to go."

The warden William Schley Howard, Friday morning that his results from an investigation of the disturbances will be introduced into Congress.

"I am making no light on Warren Grimes," stated Mr. Howard, "and I think the investigation should be as much in fairness to him as to the prisoners."

Solons Give \$5 Each For Wedding Gift for Daughter of President

(By Associated Press.)
WASHINGTON, Oct. 24.—Speaker Champ Clark today was named chairman of a joint committee appointed to select a wedding gift for Miss Jessie Wilson.

"How much shall we chip in?" asked Republican Leader Mann. "Will \$5 be a member be too high?"

"No," chorused Democrats, Republicans and Progressives.

The membership of the group is 425. All contributing to the wedding gift fund would total \$2125. What the gift will be has not been determined.

BANDIT SPREADS RED TRAIL THROUGH DENVER

Holds Up Five, Kills One Man,
Mortally Wounds Another
and Then Escapes

DENVER, Col., Oct. 24.—A bandit running amok near the heart of the city early today held up five pedestrians with a few bullets and shot and instantly killed T. J. Chase, of Palmer Lane, Col., and mortally wounded E. A. Clark, of this city. The bandit fled with an automobile filled with police, who forced him from the scene of one hold-up to another, only to arrive too late.

The shooting began when the bandit held up Antonio Pagan, a street sweeper, sending a bullet through his hat. A few minutes later, E. A. Clark staggered into a drug store with a bullet through his right leg. For a moment Chase fled with his death. Without a word the bandit shot him through the heart. He held up and robbed two others without shooting them.

BUILDING ABLAZE ON MARIETTA STREET

Miller's Old Stables Catch
Fire About 2 o'clock Friday
Afternoon

Fire which had gained considerable headway before the city department was called, broke out at 2 o'clock Friday afternoon in the building, formerly occupied by Miller's stables, on Marietta street, near the corner of Bartow street. More recently the building has been used as a warehouse.

At 2:15 o'clock the fire was well under control, but the damage seemed to be limited to the upper floor, with water damage below. The building is a three-story structure with brick front, and was vacant at the time of the fire.

There was no evidence to indicate the origin of the blaze.

RECORDS ARE SMASHED FOR BANK DEPOSITS

Commerce Flooded With Cotton
and General Prosperity

(Special Dispatch to The Journal.)
COMMERCIAL, Ga., Oct. 24.—During the past two weeks cotton has poured into the city from the four surrounding counties, taking the capacity of all the warehouses and cotton yards. On last Saturday night there was over \$100,000 worth of cotton stored in yards and warehouses ready for shipment but the railway has been unable to secure enough cars to handle the shipments.

The biggest one-day receipts was October 15, when 306 bales were bought from farm wagons. This is the record for a single day in Commerce.

Local bank-deposits have broken all former records and business conditions are more favorable among all classes than ever known before.

LAND FRAUD PRISONERS WIN PLEA FOR CLEMENCY

President Commutes Imprisonment of Hyde and Schneider, but Lets Fines Stand

(By Associated Press.)
WASHINGTON, Oct. 24.—President Wilson today commuted the sentences of Frederick A. Hyde and Joseph E. Schneider, of California, convicted of celebrating the land fraud conspiracies, in order to allow them to serve their terms in the federal penitentiary at Leavenworth, Kan.

The final court gave Hyde, two years and Schneider one year and two months, in addition to fines.

Situation More Ominous Than at Any Time in Wilson Administration—Had Not United States Lined Been Released,
Uncle Sam's Battleships at Vera Cruz Would Have Insisted on It

BY RALPH SMITH.
WASHINGTON, Oct. 24.—That the United States is hanging on the verge of an international episode of world-wide moment, through the Mexican situation, is admitted by some of the friends of the administration who ought to know.

A thrill for the nervous system of the country, which will arouse all the patriotic ardor of the people, is not unlike the indications are that Great Britain will be informed in unmistakable language that her attitude in the republic of the south is immoral and offensive to the sentiment of the United States.

Ten days ago everything indicated that Huerta was done. His time was at an end as the head of affairs in Mexico. Suddenly he was rejuvenated. From some source he secured money and a new lease of life and a flippant disregard for the advice of the United States.

From all the collateral circumstances, it is apparent that the government of the United States holds the government of Great Britain responsible for the swift transformation. Of course, those who present the phase of the case assert that behind the British government are the British oil and railroad interests in Mexico. For this point of view is indicated that the British government has been led to the belief that the course pursued by the United States has been dictated by a desire to further the oil and other interests held by Americans.

Those who know President Wilson best say this is the point where the world is going to hear from him. It is believed he will make it clear that he has sought to teach Mexico morals in politics and has not sought to teach them morals in politics. Those who discuss this predict that his warning will ring around the world and will leave nobody in doubt about the purpose animating the Wilson administration in the course it has pursued.

ATLANTA PULLING HARD FOR BIG ROAD CONGRESS

Charles P. Light Investigates Atlanta's Facilities for Entertaining

Charles P. Light, of Washington, D. C., assistant to the president of the American Road congress and field secretary of the American Highway association, arrived in Atlanta Friday morning and will remain here for a few days for the purpose of looking into the city's facilities for taking care of the 1914 convention of the American Road congress for which several other large cities are bidding.

Mr. Light was met at the Terminal passenger station by Fred Houser, secretary of the Atlanta convention bureau, and W. T. Wain, county commissioner, and driven to the Piedmont hotel, where rooms had been engaged for him. During the next part of the morning he was in conference with Houser and Mr. Houser and before his stay is ended will call on the other head men of the city with a view to learning the number of rooms he will be able to secure.

PRAISES ATLANTA HOTELS. Mr. Light was greatly impressed with the Atlanta hotels and pronounced them some of the finest he had ever seen. There is no doubt but that these facilities are all that could be asked, but interest is centered mainly in making room for road machinery exhibits representing approximately \$200,000 and demanding 10,000 feet. Aside from the 5,000 sq. ft. of the exhibition-annex, the 4,000 delegates and visitors who will attend the congress, scores of manufacturers of road machinery and material have their products on exhibition in a hall or covered lot adjacent to the convention hall.

The convention bureau has tendered to the use of the exhibition-annex, the buildings to be held in Taft Hall and the remainder of the space to be used for the lighter exhibits. In order to take care of the overflow of heavier machinery outside, space must be had. Mayor Woodward, accordingly, has offered to close Oliver street from the corner of Washington street a sufficient distance to take care of these exhibits.

Mr. Light, in company with Mr. Houser and Mr. Wain, visited the city. Should Atlanta succeed in landing the congress the convention bureau has agreed to put a temporary wooden wall over the street to protect the exhibits from any possible inclement weather.

Showing Him One of Atlanta's Scrapers

After his visit here, Mr. Light will go to the other cities bidding for the congress to learn what they have to offer in the way of inducements. At a future date he will make his report to the congress and recommend the place which, in his judgment, is best equipped to entertain the visitors and house the machinery and other exhibits.

"BOOSTERS" OPTIMISTIC. Members of the chamber of commerce who are boosting Atlanta for the congress are extremely optimistic of their chances to land the big meeting after the showing the local delegation made in Detroit, Mich., last month. At that time everything went Atlanta's way and the question been left to the vote of the convention this city would have buried her competitors in an avalanche of votes. It is because of this and the

fact that Mr. Light has made no secret of being impressed with Atlanta that the bureau feels certain of success. The naming of the next convention city is almost entirely in his hands.

At 4 o'clock Friday night Mr. Light will be tendered a banquet at the New Kimball by the Atlanta Hotel Men's association.

500 GALLONS OF BEER POURED OUT ON GROUND

DALTON, Ga., Oct. 24.—A big six-story-five-gallon distillery, with six furnaces, was destroyed five miles south of here yesterday by Deputy Collector J. P. Camp. Five hundred gallons of beer was poured out. Mr. Camp brought a part of the still to Dalton to be used as evidence when a warrant for the owner's arrest is issued.

Dr. W. D. Hunter, who is in charge of the southern field crop insect investigation for the United States bureau of entomology, was in Atlanta Friday for a conference with State Entomologist E. Lee Worsham, regarding the efforts which are being made to repel the invasion of the cotton boll weevil in Georgia.

Both Dr. Hunter and Dr. Worsham stated that the recent frosts had put a quick stop to the boll weevil for this year and that it would probably not make its appearance in Georgia until next summer. The weevil had reached the Alabama line before the frosts checked its advance.

SLATON SCHOOL LIBRARY TO HAVE A BOOK SHOWER

Parent-Teacher Association's Meeting Tuesday to Emphasize This Feature

The regular October meeting of the Parent-Teacher association of the W. F. Slaton school will be held next Tuesday afternoon at 2 o'clock in the school building. Every mother who has a son or daughter in that school is urged to attend.

This meeting will be in the nature of a book shower. The library of the school is in need of books, and the association is taking this means of getting them. Books of all kinds suitable for children—story books, fairy tales, boy and girl stories, tales of adventure and travel, child stories of art, music and literature, inventions and discoveries, history, geography, reference works—any books that will help and instruct and entertain the child, are wanted for this library.

Godonhaha Awendetgade Otcennonyat

BEFORE the white man came, these were the three words that expressed "joyousness"—a joyousness that was contagious.

Today, the three words which best express this same idea are

CAROLA INNER-PLAYER

It is the expression of the entire household—not of a single musician of that household. The young lady with supple fingers and time to practice learns to play, of course. She may become a pianist. But father, the busy man, and mother, of the household cares and social duties, become Inner-Player Pianists. The great world of music with its thousands of compositions lies as an open book before them. Especially is this true if the CAROLA INNER-PLAYER is chosen, for this is a perfected type of Player.

It is the only Player with a Miniature Keyboard, which gives a flexibility to the stroke, and it is the only Player that enables you to instantly transpose through nine keys. It is the only Player having a Wrist Rest, which means unusual ease of operation. There are nine other exclusive patented features which we want to explain to you.

You have not seen or heard the best until you have visited our store.

Count the Circles

100 PRIZES
OFFERED

The Atlanta Journal's Great Puzzle Contest

No Trick or Chance Involved. Only accuracy and Patience Required in Solving This Problem

START NOW

Both Old and New Subscribers Can Compete
This Contest Offers Equal Opportunity To All

NOTE CAREFULLY
THE PLAN OF

DIVIDEND PRIZES

MAKE THEM WORTH
WHAT YOU PLEASE

The Problem

The problem is to count the circles. Every circle is complete and intersects or touches one or more other circles. There are no parts of circles or shams or deceptions of any sort in the puzzle. In the event that no one counts the exact number the prizes will be awarded for the nearest correct solutions. Accuracy and patience are the main requisites for arriving at the correct or nearest count. Those who display these qualifications to the best advantage will solve the puzzle best.

How to Enter

This contest is restricted to people residing in the states of Georgia, Alabama, North and South Carolina, Florida and Mississippi. A payment on subscription to The Atlanta Journal of from \$1.10 to \$10.00 for the Daily and Sunday edition, or from \$1.00 to \$10.00 for the Semi-Weekly edition of The Journal, entitles a contestant to submit a solution of the puzzle. The amount of money paid will cover the subscription price for the paper, according to the regular rate, whether for city delivery or by mail.

AS MANY DIFFERENT SOLUTIONS MAY BE SUBMITTED AS THE CONTESTANT DESIRES, UPON SUBMITTING AN ADDITIONAL PAYMENT WITH EACH ONE, BUT NOT MORE THAN \$5.00 CAN BE PAID WITH ANY ONE SOLUTION.

It is not necessary to pay the same amount with each solution if more than one is submitted. As the main prizes have an added value according to what is paid in on subscription with the winning solution, contestants should familiarize themselves with the dividend schedule before sending in their subscription and solution.

Remit by check, money order, registered letter or in one or two-cent stamps. Solutions, unaccompanied by cash subscriptions will not be registered. The contest is open to both old and new subscribers within the territory designated.

Whatever is paid, whether on one or a number of solutions, will apply on a continuous subscription to The Atlanta Journal. No one associated with The Journal in any way will be allowed to enter this contest.

Territory and Subscription Price

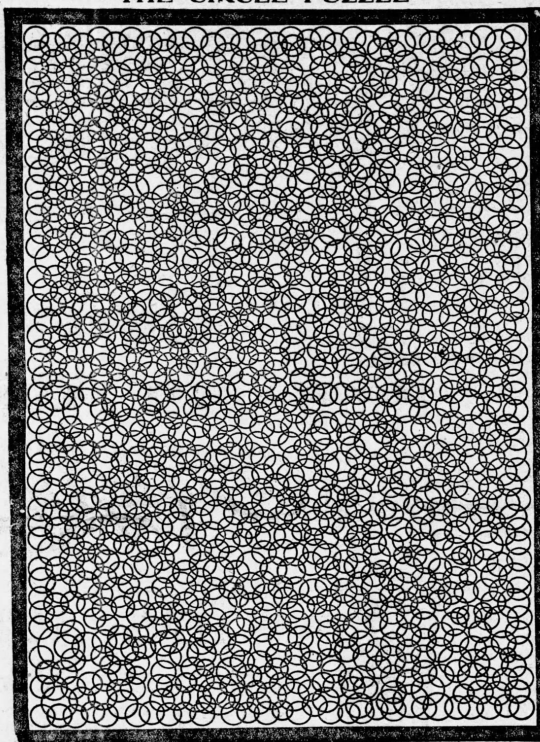

Only persons residing in the territory designated below are entitled to compete. No solution from territory outside the prescribed limits will be registered. The states of Georgia, Alabama, Florida, South Carolina, North Carolina and Mississippi.

THE PRIZE LIST

FIRST PRIZE—\$200 in Gold, to which will be added 50 times the amount paid by the subscriber with the winning solution. This prize may be worth \$500.

SECOND PRIZE—\$100 in Gold, to which will be added 30 times the amount paid by the subscriber with the winning solution. This prize may be worth \$280.

The following table shows what the first and second prizes will be worth, including dividends according to amounts on subscription.

On the First Prize	On the Second Prize
\$1.00 wins \$250.00	\$1.00 wins \$130.00
2.00 wins 300.00	2.00 wins 160.00
3.00 wins 350.00	3.00 wins 190.00
4.00 wins 400.00	4.00 wins 220.00
5.00 wins 450.00	5.00 wins 250.00
6.00 wins 500.00	6.00 wins 280.00

THIRD PRIZE—\$75 in Gold, to which will be added 15 times the amount paid by the subscriber with the winning solution. Value of this prize may be \$155.00.

FOURTH PRIZE—\$50.00 in Gold, to which will be added 10 times the amount paid by the subscriber with the winning solution. Value of this prize may be \$110.00.

FIFTH PRIZE—\$30.00 in Gold, to which will be added 5 times the amount paid by the subscriber with the winning solution. Value of this prize may be \$60.00.

SIX PRIZES—\$20.00 in Gold, to which will be added 3 times the amount paid with the winning solution. Each of these prizes may be worth \$38.00.

TEN PRIZES—\$10.00 in Gold, to which will be added twice the amount paid with the winning solution. Each of these prizes may be worth \$22.00.

TWENTY-FIVE PRIZES—\$5.00 in Gold, plus the amount paid with the winning solution. These prizes may be worth \$11.00 each.

FIFTY-FIVE PRIZES—\$2.00 in Gold, plus the amount paid with the winning solution. These prizes may be worth \$8.00 each.

Deciding Ties

In case of ties, a second puzzle will be presented. This puzzle will be practicable and solvable. Only those tied will be permitted to solve puzzle No. 2. No money will have to accompany the solution. The second puzzle will be printed but twice, and those tied will have a week in which to solve it. Mail subscribers at a distance, if tied, will be allowed a week from the time they receive the second puzzle, the time to be determined by postmarks.

In case of other ties, a third puzzle, also perfectly solvable, will be presented. It will be subject to the same conditions as the second. The second and third puzzles will only be used in case of a tie. Their purpose will be merely to decide ties, so that in the event there is a tie, the prizes will be awarded without having to divide them, or without resorting to chance.

However, only three puzzles will be presented, and in the seemingly impossible event of still another tie, the prizes tied for will be equally divided between those tying.

If there are no ties, there will be only one puzzle.

No prizes will be distributed until the contest is finally decided.

Special Conditions

Should there be any ties, as many prizes will be reserved as there are people tied before any prizes are awarded to those sending less correct solutions. That is, if two people tied on the absolutely correct answer, they would have to solve the second puzzle to determine which was entitled to the first prize and which to the second prize. Then the one who sent the next best answer to the first puzzle would be entitled to the third prize. This rule will apply generally.

While the winning of a prize does not depend upon the time the solution was registered, the puzzle is more or less elusive, and the best thing to do is to begin counting at once. Send in your solution, and if you find later you have made a mistake, send in another. There is no limit to the number of different solutions that may be registered.

All those entering the contest will, as a condition, be required to abide by the ruling of the Contest Manager. In the event of any questions arising, the Contest Manager, if he deems it wise, may appoint a committee to assist him in deciding them, and those entering the contest do so with the understanding that such decision is final.

Cut out this blank smoothly and send it with your solution and money.

HIGH TREATMENT FOR THE CIRCUS GIRAFFES

Animal Family of Barnum & Bailey Troupe, Here Next Week, Is a Wonder

In some respects a circus bears resemblance to an opera troupe. At least no operator imprudently takes better care of his stars than do the managers of the Barnum & Bailey circus. When the circus comes to Atlanta, Sunday, for performance Monday at Ponce de Leon park, the family of giraffes including a twenty-month-old infant, together with Chimbo Padden, a remarkable baboon, will be found in charge of a valet, whose sole interest lies in the welfare of his wards.

Andrew Zhigafin, valet, practically lives with the strange creatures, who are as exacting in their demands as the most capricious and temperamental prima donna. It is Andrew that sees to it that Chimbo's tobacco is properly kept, and that the coats are poured down the baby giraffe's long neck lengthwise and not crosswise. Zingara is proud of his work and will allow no one else to handle his charges. No English valet could be more careful about the temperature of his master's bath than is Zingara regarding the diet of his wards and their susceptibility to climatic changes.

When it was discovered the other day that Tom, sire of the baby giraffe, had the loose carotid, was sent for. A live, full-grown giraffe is worth fifty dollars. The hide isn't worth much. The first that anybody around the circus noticed about Tom's sore throat was when he sneezed. When a giraffe sneezes it usually comes from the throat. It did upon this particular day. Enrico de Carraro, who has one of the best and most perfect stands close by the giraffe corral, was doing comfortably behind his wires. When Tom sneezed, Enrico awoke and went for a tarpaulin. When he had spread this over his stand and hoisted an umbrella he felt more at ease. Then it was that snuff was sent for, also the circus veterinarian.

They sat back and watched Tom's throat while the attendants fed him some choice alfalfa hay. Foot by foot the hay worked itself down, pausing now and then to rest, but the watching crowd noticed that Tom made harder work of it than usual, and that the spittle of his neck was irregular. The treatment was obvious. Tom is clever as giraffes go, but has never been taught to give his throat, so it was necessary to resort to the atomizer treatment. The regulator for this treatment is a barrel of peroxide of hydrogen, a force pump, a steady hand and a clear conscience. Since the first treatment Tom hasn't sneezed once. Enrico de Carraro says he is sure he would have noticed it if he had.

MRS. VIOLET J. HOKE IS CLAIMED BY THE REAPER

Former Atlanta Matron, Aunt of Senator Hoke Smith, Died at Lincolnton, N. C.

Private advices received in Atlanta, Friday morning told the sad news of the death of Mrs. Violet J. Hoke, for several years a resident of Atlanta and well remembered here. Mrs. Hoke passed away at 6 o'clock Friday morning at her home in Lincolnton, N. C.

The deceased lady was the mother of Mr. A. M. Hoke, a former Atlantian who lives now in Lincolnton. She was a sister-in-law of the late General Robert F. Hoke, of Raleigh, N. C., and was an aunt of Senator Hoke Smith, of Georgia.

She is survived by only one child, her son, Mr. A. M. Hoke, and three granddaughters. The funeral will be held in Lincolnton Saturday.

FIND BURGLAR'S "JIMMY," BUT NO BURGLAR

A light in the basement at a very unusual hour drew the attention of Patrolmen Perry and King to the Farmers' Trust Bank on Peters street, late Thursday night. Their investigation disclosed nothing but an open window in the rear, and a burglar's "jimmy" beside it. No one was inside.

CAN CHINESE CHILDREN ENTER LOCAL SCHOOLS?

Board of Education Turns Over Question to City Attorney for Decision

Are the children of a Chinese man and a white woman eligible to admission to the public schools of Atlanta? This is the question the board of education was called upon to decide Thursday afternoon when Dr. A. M. Hughes, pastor of St. Mark's church, appeared before the board to find out why the children of Joseph Jung, a Chinaman who married a Georgia woman, have not been received into the schools.

Jung is a member of Dr. Hughes's congregation. The minister stated that he merely wished to find out whether or not the city would educate the children. He said that Jung had been trying for some time to secure admission to the schools for his children, a little girl about eleven years old and a boy about nine years old, but that because they were half-breed children he had not been successful.

"This man," said the minister, "is a taxpayer, and he wants his children educated. He is an upright Christian man and he has married a Georgia girl. His children are bright and pretty, and I think if you could see them you might consider more readily the question of admitting them to the schools. Still I am here merely for information."

The case provoked a discussion. Several board members immediately wished to know whether or not the city is legally compelled to receive the children into the schools and whether or not, if they are legally entitled to an education in the city system, they must be admitted to white schools or negro schools.

It was the understanding of the board that there is a law against admitting pure blood Chinese children to the schools, but whether or not this would apply to half-breed children was not determined. Dr. Hughes said that he was certain that Jung would not consider for a minute putting his children in the negro schools, and called attention to the fact that any rule governing the education of half-breed children would necessarily have to take into consideration two classes of half-breed children, those of Chinese, and white parents and those of Chinese and colored parents.

The board solved the whole question for the time by deciding to turn the matter over to the city attorneys for a decision as to whether or not the children are entitled to admission to the schools, and if so whether they shall be received in white or colored schools.

LADIES! LOOK YOUNG, DARKEN GRAY HAIR

Use the Old-time Sage Tea and Sulphur, and Nobody Will Know

Gray hair, however, handsome, delicate advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't say gray! Look young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of Wyeth's Sage and Sulphur Hair Remedy. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and itching hair. Besides, no one can possibly tell as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.-(Advt.)

WILSON OPPOSED TO VANDERLIP'S PLAN

President Will Not Compromise on Present Administration Currency Bill

WASHINGTON, Oct. 24.—The eleventh-hour suggestion of Frank P. Vanderlip, president of the National City Bank of New York, that the Democratic administration abandon the regional bank features of the pending currency bill for a central bank, controlled by the government, has confounded the legislative situation. It has not, however, shaken President Wilson's purpose as regards the general features of the currency bill that has already passed the house.

It was learned that the president, in a letter to a highly interested party, made it unreservedly plain that, under no circumstances will he agree to the bill proposed by Vanderlip at yesterday's session of the senate currency committee, and which has already been dubbed "The Standard Oil bill." The president made it equally as clear in his letter that his allegiance to the cardinal features of the house bill has not wavered and positively will not.

The attitude of the president with respect to the Vanderlip proposal is not denigratory, although it is regarded generally with suspicion by many persons in Washington. Indeed, the good faith of Vanderlip's suggestion is questioned in certain quarters, and it is believed by some that the Rockefeller-Morgan money power is holding out the proposal as a sop to the country. This may be shown up by subsequent developments of the exigencies of the situation to demand it.

It was explained to the Vanderlip suggestion into the situation may have a beneficial effect upon the currency question, and help to expedite the passage of currency legislation through the senate, notwithstanding the confusion that has followed immediately up on the proposal.

It is believed that the attempt of the Standard Oil bank to shape the currency legislation will tend to rally the friends of the administration and expedite the crystallization of sentiment both in the country and in the senate. Moreover, it is regarded as certain that the administration forces will be able to use their mettle and that if needs be, President Wilson will adopt more aggressive methods and adopt more aggressive methods in meeting the situation.

It became known today that the committee had been considering such a plan as Mr. Vanderlip's for weeks. In addition to his proposals, members of the committee had asked for other currency experts to formulate central bank plans. One device that has been received from New York has been received. It is similar in many respects to the Vanderlip plan.

Senator Bristow said today it was probable the committee would embrace the central bank plan in its report. If the bill as reported does not include such a plan the fight will be carried to the floor of the senate," said he.

Treasury Officials Held Up by Watchmen Who Didn't Know 'Em

WASHINGTON, Oct. 24.—If you are a newspaper man, you are a treasury department watchman of George B. McAdoo, the new secretary to Secretary McAdoo.

"I was, but I am not now," replied "Cokey." "I've reformed."

"What are you?" demanded the watchman, putting out a restraining hand. Mr. Cookey replied that he was an employee of the treasury department.

"Ah," exclaimed the watchman, "you've overstayed your lunch hour and you have to report you."

Mr. Cookey gave his name and finally was admitted to the nation's treasury house. Assistant Secretary Hamilton and Secretary McAdoo, who had been held up recently by watchmen who failed to recognize them.

UNDERWOOD BEGINS FIGHT FOR SENATE

Leaves Capital for Alabama to Start Campaign Against Hobson

WASHINGTON, Oct. 24.—Majority Leader Underwood has left the house and is speeding toward his home in Alabama. The author of the tariff law is not going home to rest, however, for he announced his intention of plunging into the fight for the nomination to the United States senate which will be made in the primaries in April.

He will be opposed by Representative Richard P. Hobson, among others, and a strenuous campaign is expected. Mr. Underwood will be gone at least a month and does not expect to return until the eve of the assembling of congress in regular session.

Car Steps Lowered to Keep Up With Styles

MRS. FAIRBANKS DIES AT INDIANAPOLIS HOME

Was Wife of Former Vice President Charles Warren Fairbanks

(By Associated Press.) INDIANAPOLIS, Oct. 24.—Mrs. Charles Warren Fairbanks, wife of the former vice president, died at her home here this morning. The immediate cause of death was pneumonia. She is survived by her husband and five children.

Mrs. Fairbanks served two terms as president general of the Daughters of the American Revolution. She was the daughter of Phileas C. Cole, of Ohio.

Political Opponents Call Off Debate to Accommodate Parson

(Special Despatch to The Journal.) FAYO, Ga., Oct. 24.—What was promised to be a tense political debate between two candidates in the second district congressional race was stopped here when Primitive Baptist preacher stepped in with a strategy that would interfere with Ohioan association convention.

The debate was to be between Messrs. H. C. Corning and J. W. Corning, who were scheduled for Saturday morning. Both candidates have agreed to come to Fay on another date, but whether arrangement can be made for them to speak from the same platform on the same day is not known.

UNCLE SAM'S GUNNERS ARE GOOD MARKSMEN

WASHINGTON, Oct. 24.—Exceptional marksmanship was displayed by the gunners of the three divisions of the Atlantic battleship fleet which took part in the target practice off the Chesapeake capes last week, according to unofficial reports received here. Detailed scores have not reached the navy department, but that results marked a distinct advance over those obtained last year is indicated by the following quotation from one of Admiral Badger's messages to the fleet captain:

"The commander-in-chief desires to express his appreciation of the great improvement shown in the marksmanship scores made at division practice."

GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat less meat if you feel Back-ache or have Bladder trouble

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eating of meat must flush the kidneys occasionally. You must relieve them of all uric acid. You must relieve them of all uric acid. You must relieve them of all uric acid.

To neutralize these irritating acids and free the body's various waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation.

Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder disease.—(Adv.)

KILL CATARRH GERM USE BOOTH'S HYOMEL

Try the sure and most effective way of curing the raw, tender, inflamed mucous membrane infested with catarrh germ—breathe Hyomel. All druggists sell it.

"You cannot reach the nooks and crevices of the breathing organs with liquid preparations; there is only one way—breathe a few times daily the germ-destroying air of Booth's Hyomel. It acts directly on the inflamed membranes and destroys the catarrh germ."

Hyomel is not a cure-all; it has one purpose—quick and effective relief of catarrh and diseases of the breathing organs. When you are free from catarrh the general health will improve.

If you suffer from offensive breath, raising of mucus, frequent sneezing, husky voice, discharge from the nose, drooping of the throat, spasmodic coughing, or any other symptoms of catarrh, use Hyomel at once. It will destroy the disease germs in the nose, throat and lungs, and give quick and permanent relief.

Hyomel does not contain cocaine or any habit-forming drug—no stomach dosing—you just breathe it. The complete outfit including pocket inhaler and bottle of liquid costs \$1.00, extra bottles of liquid, if later needed, 50 cents.—(Adv.)

Fashions Were Never So Varied

The great designers seem to have drawn on every quarter of the globe for ideas this season.

Russian tendencies show in the new coats—Japan's influence is seen in the shapes and fabrics of evening wraps.

Paris gathers her ideas from every race and clime, and American designers and modistes re-adapt Paris creations for American women.

The displays in Atlanta stores are intensely interesting, and the store news as told in the advertising of The Journal is very much up to the minute.

To keep posted on the new fashions and their practical application you should follow Journal advertising closely.

It is real news for those who love to be up to date.

The President's Daily Mail

B. FREDERIC J. HASKIN.

of the executive mail varied greatly from season to season. There was a certain number of routine letters from the department which maintain a fairly steady flow; then there were letters brought on by extraordinary events. After signing of the tariff bill, for example, thousands of letters were received relating to that alone; but, then, there were nearly 600 telegrams. Some were congratulatory, some critical, the list including requests for information, questions, predictions of effects and observations of various characters.

of the president's mail passes through the hands of a clerk who opens and sorts it. A small number of letters go directly to the president's desk. Those relating to important appointments and of a political nature generally go to the desk of the private secretary, Mr. Brabany. Executive Clerk Rudolph Forster gets the letters from the executive departments of the government. In many others of importance, Chief Clerk Thomas Brady gets the requests for interview with the president and those which relate to him in a personal or social way. Brabany gets the frank letters, and the letter, however unimportant, is briefed in a few lines and the daily list of briefs sent to the president.

Mr. Abraham, perhaps, has the most intellectual of all, for his letters constantly reveal the workings of human imagination taken, as well as the workings of human interest stories, from the naming of the Eskimo baby "Woodrow" to appeals by mothers for the release of imprisoned sons.

• • •

The president's mail uncovers at times impressive evidence of ignorance as to what the president's duty is. Not long ago there came from a cashier of a national bank a large batch of old paper money which he desired the president to take in exchange for new bills. The clerk marvelled that a man who had attained the cashiership of a national bank should be so ignorant. It was the function of the treasury department and not the White House to redeem currency.

It is estimated that 700 young Americans have listened to Woodrow Wilson within the last year. Information as to the christening of practically every child in the country has been conveyed to the president by Mr. Bryan, who has written a nice little note to each parent in which he congratulates the parents in such case, expressing the president's assurance at the honor which has been conferred on him by the youngsters were born on election day, and on the day of the inauguration, some on the president's birthday, some on the day the tariff was signed, but many of them had no excuse at all for being born on the president's birthday. The latter will be the president's first birthday. The children's parents have received all the congratulations, and, however, and passed down to their children with as much satisfaction as if they were a source of intimacy with the president of the United States. Young Woodrows have seen the light of

practically every quarter of the globe. Across such christenings have come from Africa, Europe, Asia and Alaska. An Eskimo mother wrote not long ago that although doubtless many babies had been named Woodrow, her son could lay claim to the distinction of being further north than any other member of the clan.

. . .

Along with these accounts of christenings came letters from people who want prizes for large families who announce the birth of triplets. These letters

are echoed from President Roosevelt's administration. Mr. Roosevelt's frequent declarations against suicide started these letters and they have been pouring in ever since.

Despite the publicity which was given to the president's declaration last March that he would not accept any candidates who came urging their appointment to civil jobs, there are still a great number of job seekers writing for interviews with the president for the purpose of furthering their candidates.

Office seekers generally are prolific letter writers. They write for indorsements from the president or recommendations to the departmental officials from whom appointments are sought. Little knowing that the president just as well have sent these applications directly to the officials concerned, the letters are

The requests which come to the president in favors are so numerous that he must usually decline. Organizations in various parts of the country for little messages of greetings for anniversaries; country newspapers want brief articles to print on their front pages; managers of hotels want the president to press buttons to set their elevators going; photographers ask for the privilege of photographing him at his desk, and many other

The announcement of Miss Jessie Wilson's departure for the sacrifice of much of the president's time was a disappointment. The president announced that he would go to the opening meeting of the Southern Commercial congress convention there on October 25 to address the opening meeting of the convention. He had received so many requests to stop off at various places along the route that had he granted them all he would have been away from Mobile would have consumed a longer time than if he had undertaken it on horseback.

invariably returned to their senders. One such gift was sent by a former government engraver of Mr. Wilson, who desired to retain his position. He had engraved an elaborate pattern on an egg shell as evidence of his skill, and sent this to the president with the suggestion that Mr. Wilson issue an executive order stating him.

* * *

Strange to say, the gifts to the president have included only smoking material. Mr. Wilson, like his predecessors, President Taft and President Roosevelt, does not smoke and his abstinence in this respect has been a constant topic of conversation in the White House.

A president of the United States must obtain consent of congress before accepting a gift from a foreign government. The strictest interpretation of this law has not always been put upon this constitutional restriction in cases where the gifts were tendered by foreign rulers as personal tokens. President Roosevelt was well known. This was not the case with Mr. Roosevelt and Mr. Taft, however for they recently received boxes of cigars or samples of smoking mixtures.

transported two lions from the emperor of Abyssinia and turned them over to the Washington zoo without consulting congress. Mr. Wilson put an embargo on the observance of the restriction upon himself, and a few months ago when an English society tried to present him with a bust of William Pitt, he defended American liberty." Mr. Wilson would not permit the bust until congress had passed a resolution on the debate in congress on this resolution. Now it is open to the long lists of gifts tendered to presidents of the United States by foreign powers, and accept-

ected by them as congress dictated.

YOUNG WOMAN HURT UNDER AUTO'S WHEELS

Miss Jack Weaver Run Down
by Machine Thursday Night
on Whitehall Street

Miss Jack Weaver, a guest at the Southern Hotel, was slightly injured about 9 o'clock Thursday night, when she was struck by a car driven by J. M. Holander, a chauffeur for the hotel. The car was a Buick mobile company.

The lady had her steps taken from the curb to cross Whitehall street, and as she stepped on the curb, the automobile struck and knocked her over. She was taken to the hospital, but over her, however, and according to reports, she is recovering.

Grady Holander, who is suffering mainly of a broken arm, was arrested by the police.

According to the accident, the car was arrested by Patrolman Chas. J. O'Connell, who was on duty at the time.

The lady had an umbrella in front of her, and the car struck it, and the car, which was not moving very rapidly, was stopped.

POLICE SALARY BILL DRAFTED

The new police salary bill, drafted by the police committee and approved by the council recently, was amended and passed by the board of police commissioners. The amendment to the bill provides for a 10 percent increase of salary increase. In the original bill, the increase was 5 percent, or \$50 per month. The board of police commissioners has decided to increase the increase to 10 percent, or \$100 per month. The Cadet Heater

Here is an exact reproduction of the quickest, safest and most economical hot water heater ever offered suffering housewives.

The stove is all cast iron construction—the only durable, satisfactory metal for stoves.

Around the fire box there is a round half inch water pipe which is twenty-one feet long.

A handful of chips and a few lumps of coal used in this stove will heat the regulation boiler of from 30 to 120 gallons of water in ten minutes.

This little heater will save money and time—it is a new way to better results. Far superior to water coils in your cooking fires or your furnace.

Any stove dealer will erect a Cadet Heater—attach it to your boiler. Any plumber will install a Cadet Heater connected to your boiler.

Let you must insist on a Cadet Heater—or you will get a cheaper, ineffective one with about a 25 feet water pipe instead of the 21 feet you get in a Cadet Heater.

WOULD SHOW ADMIRAL ADDICTED TO DRUGS

At Trial of His Widow for His Murder, Evidence Is Introduced as to Habits

PLYMOUTH, Mass., Oct. 24.—Testimony to support the defense's contention that Rear Admiral Eaton was addicted to drugs, was given today at the trial of the widow, Mrs. Jennie M. Eaton.

Peter S. McNally, of Boston, told the court that in 1897 and 1898, when Eaton was a captain in command of the training ship Enterprise, he frequently appeared intoxicated, talked incoherently to himself and stared vacantly, yet no color of liquor could be noticed on his breath.

Judge George W. Kelley, of Rockland, friend and legal adviser of the Eaton family, testified concerning the affection of Admiral Eaton and his wife, who is accused of having poisoned him. The admiral once said to Judge Kelley:

"I have a remarkable wife, who has been of great help to me, but she has one obsession, her daughter Jane."

Mrs. Eaton had expressed fondness for the admiral, although she did not always speak of him in affectionate terms. She told Judge Kelley that her husband was becoming insane from the use of drugs, but when a witness proposed having him arrested or committed to an insane hospital, she declared that she would not allow any one "to harm a hair of my husband's head."

Judge Kelley had no personal knowledge that Admiral Eaton used drugs.

Dr. Jacob W. Brown, formerly a Boston physician but now serving a jail sentence for illegal practices, testified that in 1910 he prescribed a preparation containing arsenic at the request of Admiral Eaton. The prescription called for 1.660 of pills, each containing 1-100 of a grain of arsenic.

Later the admiral brought some of the pills to the witness, saying that his child had died from eating one of them. He said that Admiral Eaton was often intoxicated when he called on him.

ERECT MEMORIAL SOON TO WOMEN OF CONFEDERACY

Daughters of Confederacy and Vets of Commerce Are Behind the Plan

(Special Dispatch to The Journal.)

COMMERCIAL, Ga., Oct. 24.—A movement begun in this city four years ago by the J. H. Morgan camp of Confederate Veterans and the Commercial chapter, Daughters of the Confederacy, to erect a suitable memorial to the devoted and self-sacrificing women of the Confederacy will soon be consummated.

A patriotic citizen of Commerce two years ago donated a lot and a substantial sum of money toward a memorial hall, now completed, and the Daughters of the Confederacy and the Veterans of Commerce are now completing the hall, which will provide a chapter house, a public library and archives for records, relics and other valuable data.

The veterans and daughters of Commerce were the first to suggest a memorial to the women of the Confederacy. Recently the veterans and daughters, now completing the hall, which will provide a chapter house, a public library and archives for records, relics and other valuable data.

Trooper Killed by Lightning While on March Turns Out to Be Georgia Boy, but Not Him for Whom Funeral Preparations Had Been Made at Home in St. Charles

(Special Dispatch to The Journal.)

NEWMAN, Ga., Oct. 24.—Profound grief was brought to the family of John L. Morris, a resident of this county at St. Charles, Thursday morning, by a dispatch from the war department at Washington that among the soldiers killed by lightning in Texas last Wednesday was his son, George C. Morris.

But another dispatch this morning dispelled that grief and cancelled all arrangements for the reception of the body and its funeral here. Today's dispatch from the war department informs Mr. Morris that a mistake was made yesterday, and that the George Morris, who was killed was not his son, George C. Morris; that George C. Morris is alive and well and is serving in the infantry command at Vancouver barracks, Washington state.

The matter is rendered still more remarkable by the fact that George Morris, who was killed, is also a Georgia boy. He and his brother, Monroe Morris, both were killed by lightning in Texas Friday to their home at Blue Springs, Morgan county, Ga., for burial.

No relative of the third victim of the lightning, John Zimmer, yet has been found by the war department, it is said.

News dispatches in Wednesday's paper related that a column of the Sixth United States cavalry, on the march between Galveston and Texas City, had been struck by lightning and that three privates had been killed.

Mr. John L. Morris, of this county, read the dispatch and wired immediately to the war department asking if it was his son, George Morris, named in it as his son. The war department answered affirmatively, and preparations were begun here for the funeral.

GENERAL MORTGAGE FOR PENNSYLVANIA LINES?

President Rea Says Such Is Being Contemplated to Finance Roads

(By Associated Press.)

PHILADELPHIA, Oct. 24.—In answer to inquiries by stockholders, President Rea of the Pennsylvania railroad, today confirmed the report that the company is considering the creation of a general mortgage as a basis for the company's financing for many years to come.

Mr. Rea said:

"Under this mortgage it is contemplated to issue bonds in such amounts from time to time as may be required to provide necessary additions, betterments and improvements to its railroads, equipment, property and facilities; the funds that may be necessary to meet maturing obligations, and for such other corporate purposes as may now or hereafter be duly authorized by law. The aggregating amount of bonds that may be issued, when at and above time exceed the outstanding capital stock."

When approved by the directors the whole question will be laid before the stockholders. The company has no expenditures that require immediately financing, but desires to announce the contemplated preparations for the necessary refunding and capital expenditures in 1914, 1915 and later years.

"\$1,000,000,000 General Mortgage" Not Improbable

(By Associated Press.)

NEW YORK, Oct. 24.—Bankers connected with the Pennsylvania Railroad company declined to discuss the proposed new financing by that system. Wall street has long known that Pennsylvania contemplated some readjustment of its outstanding securities and a \$1,000,000,000 general mortgage "is not improbable."

Pennsylvania's authorized stock issue is \$600,000, of which \$191,000,000 has been paid for. The railroad's funded debt amounts to \$214,000,000 at that of the Pennsylvania company, which operates all the lines west of Pittsburgh, but owns none in New York.

Pennsylvania shares were especially weak today but failed to touch the low price of the early year.

NEW YORK, Oct. 24.—Bankers connected with the Pennsylvania Railroad company declined to discuss the proposed new financing by that system. Wall street has long known that Pennsylvania contemplated some readjustment of its outstanding securities and a \$1,000,000,000 general mortgage "is not improbable."

Pennsylvania's authorized stock issue is \$600,000, of which \$191,000,000 has been paid for. The railroad's funded debt amounts to \$214,000,000 at that of the Pennsylvania company, which operates all the lines west of Pittsburgh, but owns none in New York.

Pennsylvania shares were especially weak today but failed to touch the low price of the early year.

OUR ASTROLOGER

"The Stars incline, but do not compel."

MOROSCOPHE.

FRIDAY, OCTOBER 24, 1913.

For forms: the rapid return how gives aid.

SAURIN today is in a place making strongly for good, the astrologers declare. Mars is mildly helpful to mortal, while both Venus and Mercury are in adverse aspect.

It is a time for whatever work requires color, prudent and conservative action. The sign is favorable for diplomacy.

The influences are believed to aid all who would be prudent and wise in the handling of their money. For investment, especially those that are connected with real estate, the rule is advantageous.

Shoemakers, harness makers and all who deal in leather goods are held to be under a fair omen.

There is a good augury for persons engaged in the organizing of systematizing business. The way stimulates constructive or executive power.

Whatever is connected with surgery, pharmacy, medicine and anatomy should prosper under this way of the stars. The aspect of Mars is read as adding the ambition. They should feel a great access of force and energy while the configuration prevails.

Solicitors and canvassers have reason to expect unusual success today, the stars declare. Collectors of money, also should have good luck.

Women are subject to disappointments while Venus is in the place, which the planet occupies after noon. They will be studious and industrious. They will be fond of the society of the opposite sex. Boys may make courtship before they reach middle life.

Mrs. Bartlett's Bridge Party

Mrs. A. C. Bartlett entertained a number of friends at bridge Friday afternoon at her home on Lucile avenue, in compliment to her guest, Miss Martha Hamby, of Washington, D. C.

The house was attractive with quantities of autumn foliage and clusters of white chrysanthemums filled vases on the mantels in all the rooms.

The first prize was a piece of china in old and white, the consolation was sterling silver pepper and salt, and the guests of honor received a silver cheese knife.

Invited to meet Miss Hamby were Mrs. W. D. Alexander, Mrs. John A. Carlisle, Mrs. Davis, Mrs. Benjamin Newman, Mrs. Edward Chesire, Mrs. Ellen Rockwell, Mrs. H. G. Gregory, Mrs. Lulu M. Fisher, Mrs. Joseph Brown, Mrs. Leon Singer, Mrs. James Parsons, Mrs. Casper, Johnson, Mrs. Thomas Rody, Mrs. Thomas, Mrs. Fred White, Mrs. A. V. Falkenberg.

Mrs. Thornton Mayr was the hostess at a delightful informal bridge Friday afternoon, complimenting Miss Katherine Ellis, one of the season's most attractive debutantes.

Mrs. Mayr's apartment was bright with pink chrysanthemums and Killarney roses. The artistic arrangement, contrasting with the green of ferns and growing plants.

Refreshments were served at the card tables in the living room, and twelve friends were guests of the occasion.

"I hear you're writing books on sex hygiene," "Yes," replied the book writer, with a chuckle. "I've struck pay dirt at last."

Of the two kinds of blowers the old-fashioned yellow is less annoying.

To Entertain

Mrs. Robert L. Davis will entertain at an evening bridge party Saturday at her home in West End, the occasion to compliment Miss Martha Hamby, of Washington, D. C., who is spending some time as the guest of Mrs. Artemas Bartlett.

Lucy Cobb Notes

ATHLETICS—Progress in basketball practice is most encouraging and every day recruits are added to the raw squad. At present three of the members of last year's team, Misses Cora Brown, Annie Parker and Rachel Nunnally, are assisting in the coaching.

Miss Leonora Golden, of Columbus, left last week for her home to attend the wedding of her sister, Miss Kathleen Golden, to Mr. William Pease.

Miss Louise Walker and Miss Rachel Nunnally spent the past week end in Monroe with their parents.

Miss Susie Perkins is spending a few days at her home in Columbus.

On last Tuesday Miss Jennie Smith and Mrs. Stella O. Brumby entertained at an informal bridge party in honor of Mr. and Mrs. Edward Tipton, who are visiting in Athens. Twelve guests were included, the occasion being one of great pleasure.

Miss Emma Jordan, of Atlanta, has been the popular visitor of Miss Louise Vincent at her home on Hill street. Miss Vincent has given two large parties in honor of Miss Jordan, who is spending the last two years Miss Jordan was a student at Lucy Cobb and has spent the past summer abroad. Miss Jordan left for her home in Athens on Wednesday, and on Thursday left for Mobile, where her father will attend a meeting of the Southern Agricultural association.

Mrs. Woolley spent the past week-end in Athens as the guest of her daughter, Miss Marion Woolley, who is a popular student at Lucy Cobb.

Mrs. R. J. Wright and Mrs. House, of Elberton, spent Saturday in Athens with Miss Thelma Wright.

Miss Ruth Reid spent the past week-end at her home in College Park. Miss Reid is one of the most popular of the girls at Lucy Cobb and is interested in all of the college activities.

Society Dines in the Kitchen

(New York Times.)

Paris.—This year's shooting season is likely to be long remembered for the innovation of a kitchen dinner, which has been enthusiastically received in the way of a new departure in the great kitchen of the chateau. The idea was given by the Count de la Roche, a great big fellow in a kitchen uniform, who has been in the kitchen for many years.

The dining table, complete of the chateau, was set in the kitchen, and the guests, who were all of the highest rank, sat on large, soft cushions, from which the hostess, who was dressed in a kitchen uniform, served the guests with the greatest of ease. The guests fit on large, soft chairs and drank French wine from perfect tankards.

Miss Connolly's Luncheon

To Miss Martin

Miss Frances Connolly was hostess at a bridge luncheon Friday at the Piedmont club in compliment to Miss Alice Martin, of Jacksonville, Fla., who is being pleasantly entertained as the guest of Mrs. Walter Martin at her home on Ponce de Leon avenue.

The occasion was informal, twelve friends being invited, for the bridge game which was followed by a luncheon.

Miss Everett's

Hallow'en Party

Miss Marie Louise Everett will entertain at an informal party on Hallow'en at her home, who is being pleasantly entertained as the guest of Mrs. Walter Martin at her home on Ponce de Leon avenue.

The attractive details of which carried out the suggestion of all Hallow'en. A series of parties will be tendered by Miss Martin during her visit.

"Box Bountiful"---

is the happy result of a determined effort to produce Dollar-a-Pound Chocolates that are actually better than accords necessary. Now-a-days there's a decided preference for flavor combinations of nuts and fruits. Box bountiful meets this popular demand with an assortment so pleasing that candy-lovers have aptly named it the "perfection of confections." It sells for One Dollar the pound--and is worth it.

What Anne Rutenhouse Says

It looks very much as though the case for the new dance will shortly revolutionize footwear. Ever since women combine pleasure, exercise, grace and social accomplishment in learning how to dance the different varieties of the one step, the Argentine tango, and the Brazilian maxixe, the change in shoes and slippers has been remarkable.

When dress slippers first came into fashion in Paris, the American women thought they were impossible, and now, one year later, the women are demanding that the shoes keep them.

In small towns where it is not easy to find a variety of fashionable shoes, women have made use of flat bath room slippers.

They have taken off the pomper, substituted a flat low or a tiny ornament, sewed crocheted rings along each side and run these through with narrow satin ribbon to match the slipper; this they have crossed over the instep three times, then wrapped it around the ankle and tied it at the side. Not a bad idea!

The Heels Slipper.
So popular has the slipper without a heel become, that fashionable women are relegating the usual French heeled slipper to formal afternoon wear. The really well dressed American woman does not wear the heel. From her heel when walking; she leaves that to the extremists and to the woman who buys the last cheap fashion.

The woman with a well shaped foot wears lower heels than she has worn for years on a walking boot, and sometimes an entirely flat heel on an English pump.

It is not possible to dance the new dances well with a high-heeled slipper as every woman who dances knows full well by this time, therefore, only the woman who does not and will not dance finds comfort in the slipper that she has always worn.

The very new one of the moment is copied from the ballet; it has square toes, a short vamp, an absence of heel, and ribbons that lace around the foot and the ankle to keep it in place.

So popular has this slipper become in Europe that the women who could not get it danced in these shoes, one would see them in delectable satin gowns with short skirts, and then less white tennis shoes! After a while the men began adopting this form of footwear and after a while one could grasp at seeing white canvas shoes below a dress suit.

The men cannot manage the ordinary pump in fancy dancing.

It looks as though the square-toed slipper will have been seen by this time. We are laughing at it now, but it is growing in favor every day. It is keeping with the exceedingly comfortable clothes of the day. The low cut, the short skirt, the absence of unnecessary underwear, the loose shoulder, the broad back and the natural waist measurement are features of fashion which coincide with the flat square-toed slipper tied around the ankle.

Shoes With Colored Tops.
Fashion did not accept at first the introduction of colored top shoes. Today the gray and the bluish colored upper is considered conservative. One can wear it in the morning with a coat suit or in the afternoon with a smart frock and a fur coat. But it is considered proper to have dull kid vamps in the morning and patent leather ones in the afternoon.

Beyond this acceptance, the well dressed woman does not go. She avoids the shoes with high faceted bands and scallops of gold meandering over the colored cloth. If she wears a boot with a light cloth top she demands that the lines be clean cut and without ornament.

Although the extremists are wearing the half and half shoe, with a leather vamp that curves under the instep and ends there with the back of the shoe made of cloth, the fastidious woman has never taken it up and probably never will.

The revolution in shoes really lies in their shape, and not in their material. One is getting broader and heels flatter, and we are beginning to say: "What smart shoes" when a woman shows her feet this covered.

The doctors are having a say in this new fashion. They are opposed to it, just as they are opposed to the unboned corset instead of a corset. They are aware that both methods of dressing are called natural and restrictive, but they are also aware that this race of women is centuries removed from naturalness, and that our present physical constitution does not allow a heelless shoe and a corsetless waist.

Nature revenges herself when we try to coerce her. We have treated her to our desires and harassed her to our fashion, and she makes us suffer if we turn her loose.

One doctor has said that he attributed the nervous breakdown to a patient to the wearing of heelless shoes. The lowering of her whole body when she was walking and the sudden fall of the arch, had destroyed her nervous tone.

This is an important discovery, so be wary before you are fashionable!

Newspaper Men's Golf Tournament Announced at East Lake

HANK'S EIGHTH DAY--KNOBS TRIES TO GET A BEARSKIN FOR HIM

--BY FARREN

THE SPORTLIGHT BY GRANTLAND RICE

LINES TO MRS. PANKHURST.

Lady--a welcome to our golf links at East Lake, but it will be strictly for newspaper men. The golf committee of the Atlanta Athletic club has authorized the announcement, and just as soon as it can be ascertained what days will be most suitable to a majority of those who are to engage in the trophy to be played for. It will be a handsome cup of silver set of some kind and well worth striving for, aside from the honor it will carry to the winner, that of being the best player among the Atlanta newspaper fraternity.

There are enough golfers among the scribblers and business office men of the three Atlanta dailies to fill at least two flights, or thirty-two entries. Some of them are high class players while others have recently taken up the game and are not so skilled with the use of the driver and putter. A handicap committee will bring them all to a common level at the first tee, however, and each player will have an even chance, with a proper handicap, as any other.

There will be no qualifying round but the entries will be put in a hat and drawn out in pairs, each pair thus drawn to play a match of eighteen holes. The winners in the first flight will then meet the winners in the second flight, and by the process of elimination the best player will be developed. There will be a cup for the winner, a trophy for the runner-up, and other prizes.

Anyone connected regularly with one of the newspapers is eligible to enter the tournament. Editors in chief, managing editors, city editors, business managers, reporters, advertising men on the staff, and special writers are invited to enter. The entrance fee will be \$1, and the proceeds from this source will be devoted to the purchase of the prizes other than the big trophy offered by Mr. Adair.

It is desirable to pull off the tournament within the next week or two, if possible, so that it may be concluded before winter weather sets in.

When Mrs. Pankhurst decides she is in midseason form she should attend a National League meeting and find out what the good old slammer rough stuff really is.

She would then, remembering the days when she thought her lute above .300, probably be in the pink of condition.

A Mr. Augell, of Tufts college, can peg a football seventy yards, according to reports. And he can boot him over. He may be another Johnson who has wandered adrift from his proper sphere.

The White Sox beat the Athletics five of the last eight games played; the Athletics trim the Giants four out of five; the Giants trim the White Sox three straight. One more cheer for the Grand old flag.

THE WEST NOW DUE.

In 1906, 1907, 1908 and 1909 the world series was staged in the west among three towns--Chicago, Detroit and Pittsburgh.

In 1910 the show was staged in both sections, Chicago and Philadelphia drawing the carnival. But for the last three years the east has had exclusive reign. So the west is about due again, but the best it can hope for is another division of the spoils with this Mackian still rampant.

It's high time the west was slipping back up around its ancient ballroom haunts. Not a western club this last season was able to finish 1-2 in either circuit. These situations shift in two and three year spans, but the moment is now well nigh due for the western realm to take aside its winding sheet and slip back into the game.

And what has become of H. W., who used to bat in a pinch for a Yankee now and then?

Willie Ritchie is scheduled to fight Leaches Cross in a day or so. He is fighting some one if he intends to continue his profession. As it is, we had to figure a moment as to whether he was a prize fighter, one or Bill Dahlen's new bushers, or a member of the English polo team.

WHIS IS STILL NOW AND THEN.

"Who is the best shortstop in the game today," queries J. J. F. "Barry, of the Athletics, or Fletcher, of the Giants?"

Neither one when Hans Wagner happens to be feeling a trifle fit or within 20 per cent of his old-time form.

If you don't believe it, ask Hank O'Day. "It makes me laugh," says Hank (which is some job), "whenever I hear of Barry, Fletcher or some of these other shortstops being placed above Wagner. The Irishman will be the best shortstop in the game as long as he can rip out between second and third."

We might link a comparison between Charles F. Murphy, of Tammany Hall, and Charles W. Murphy, of Chicago, if it wasn't for the fact that both might sue us for libel.

And what is more to the point, both would have the strongest part of a case.

Still, Mr. Murphy of Chicago, is improving a trifle. This is now late October and he hasn't become involved in any wrangle yet.

Harvard announces that Holy Cross was entirely too rough. And the Holy Cross coach states that he went to Cambridge with a football team and came back with two men. Judging from the testimony upon both sides, the new game still has a kick, or two imbedded in its routine.

Donald Fraser School Plays G. M. A. Friday

The management of the management of both schools, the game between Fraser Military academy and Donald Fraser school, scheduled for Saturday afternoon will be played off Friday afternoon.

The game is one of the prep league's season and will have a direct bearing on the final standing of the team. Donald Fraser has put in some hard afternoon practice since for the first two years ago at the hands of Boys' High, Georgia Military academy is in good position.

The game will start at 2 o'clock. An admission fee of 25 cents will be charged.

Phillips Buy Pitcher

PHILADELPHIA, Oct. 24.--The Philadelphia National League club Thursday afternoon bought pitcher Jacobus from the Boston Red Sox. The purchase price was not stated.

OH YOU GOLF Newspaper Tourney

There will be one more tournament played this fall on the golf links at East Lake, but it will be strictly for newspaper men. Sewanee Takes Long Hard Trip

SEWANEE, Oct. 24.--The Sewanee football team left the mountain yesterday morning for the two days' trip to Dallas to play the University of Texas on Saturday. This will be somewhat of a handicap, as every member of the team will be thoroughly tired out by the time they arrive in Dallas Friday night, but there were twenty-two men on the squad, besides the coaches and trainers, so there will be plenty of reserves to draw from, in case they will be needed.

The old fighting spirit that has become the trademark of the Sewanee team is not lacking in the present squad, as shown in the game last Saturday with the University of Tennessee. For, though Tennessee scored in the first few minutes of play, the Purple team never for a minute faltered, but by coming back stronger than ever, piled up the larger score.

That Coach Cope places a great deal of confidence in his line is very evident, considering the way he has so far planned the Tiger attack. He remarked during the last game that after he had seen the teams play the first few downs he felt no uneasiness as to how the game would result. Even though Tennessee scored on a fluke, the little general never for a moment seemed worried as to the outcome, exclaiming: "They can't do a thing with that line!"

As the greatest weakness shown by the Sewanee team Saturday was the tackling of some of the men, the coaches have had the squad busy the first of the week tackling the dummy and men on the scrub team.

Choose Your Clothes With Care

Get full value from every angle for every dollar you spend for this winter's clothes.

Get them where they're manufactured.

Get style, of course--the newest style. But be sure that it is one that will become *you*. We make every Suit and Overcoat that we sell.

You can't judge by prices alone when buying clothes. High price doesn't always mean high quality, any more than low price means "cheapness."

We have manufactured our fall and winter stock of Men's Suits and Overcoats--undoubtedly the largest we have ever carried--with a view to suiting the tastes of the men and young men of Atlanta, and at the same time suiting their pocketbooks as well.

We Specialize and Particularize Suits and Overcoats at \$15, \$18 and \$20

The New One

Belted Back, Shawl Collar

Chinchilla Overcoats

Blue, Brown, Oxford

\$18--\$20

We have a selection of the best \$200 Hats to be found in the State of Georgia, including all the popular shapes in blue and green.

Our Boys' Knee Trousers Suits, with extra pair trousers, at \$5.00--and no better Boys' Suits can be found anywhere at any price.

There is real warmth and comfort, as well as long wearing qualities in our men's warm Underwear--Cotton 50c, part wool \$1 and \$1.50. If you need a few suits of Underwear that you will pronounce "good" when you wear it, then come in and make your selections.

We are genuinely proud of our splendid fitting, fast color shirts, at \$1 and \$1.50. These Shirts will not fade--we warrant them not to fade, and should one of them fail to hold its color, we will gladly replace it with a new one.

Our choice selection of House Robes, Bath Robes, some with slippers to match, has attracted more than ordinary attention, and we should be glad to have you look them over. Prices, \$3, \$3.50, \$4, \$5 and \$6.

You will like our assortment of handsome silk and velvet Neckwear at 50c. All the new designs and color schemes are woven into these ties.
